ABOUT THE STATE.

Items of Interest Gleaned From Our Exchanges.

Irene, the two-year-old daughter of Mr. and Mrs. Joseph Vincent, of Jacksonville, who was terribly burned by walking into the hot ashes of a brush fire, died June 2, after ten days of suffering.

The Rev. F. E. Colburn has tendered his resignation to the Baptist church at South Londonderry of which he has been the pastor for five years, to accept a call recently extended him by the Baptist church at Barnardston, Mass.

B. F. Welden, of Ludlow, has fallen into line with Standard Oil investigation and paid out a hundred dollars for pumps that register the number of gallons put into his tanks. Now he suggests that somebody "keep tabs" on him by inventing a can with an indicator to show when a customer gets five gallons.

Charles H. Woodbury of St. Johnsbury, has been appointed aide-de-camp on the staff of James Tanner of Washington, D. C., commander-in-chief of the United States Grand Army of the Republic. He has been given the title of colonel, and his duties will consist principally in getting back into the Grand Army the old veterans who have withdrawn from the organization.

Correspondence is going on between one of the prominent business men of White River Junction and the proprietor of a bleachery in Providence, R. I., relative to the transference of its plant to White River Junction. Abundance of water and nearness to a timber region are the chief things desired by the firm, and the Junction can meet these requisites. The company employs a force of two hundred workers.

Co. F, 1st Inf., V. N. G., at Northfield has for trumpeters John and James Wood, twins who look so much alike that the captain or officers of the company think they are talking to Jimmie when they are talking to Johnny, and so close is the resemblance that persons who have known the boys for a long time are not at all sure to which one they are speaking. They constitute the most unique trumpeters which any company in New England, if not the country, has in its ranks. What is better yet they are first class bugle players.

THE CLEAN-UP.

Hot citizens, come shed your coats and vests.
Roll up your sleeves, wedge clothespins on your noses.
Let a firm purpose animate your breasts
To make Chicago like a bed of roses.
Get out and take
Clean, from the Western limits to the lake.

Turn on the hose and ply the soft squeegee.
Invade the vacant lot, clean up the alley.
Let's have a democratic cleansing lee
To wash all good Chicagoans many rally.
Let's swap and mop.
All other business drop.
Clean, and still clean, without a stay or stop.

Now is the time to clean the trash away.
The rags, bones, bottles, rusty cans and paper.
Discarded bedspring, mouldy straw and hay.
Spring cleaning is about the proper caper.
While you perspire,
I'll sit and twang my lyre.
All day I urge you on and never tire.

A Scarcity of Pigs in England.

For some time past pigs have been scarce, and as a natural consequence, bacon and all hog products have been rising in price. It is really extraordinary considering how very prolific an animal is the pig, that producers in this country cannot do more towards supplying the steady and continually increasing demand for pig meat. It is a great reflection upon the enterprise of British farmers to consider that for this produce alone upwards of \$15,000,000 is sent abroad.—The Grocery.

She's All to the Good.

Racon—Marriage does make a difference, after all.
Egbert—How so?
Racon—A man marries, when he hears his sweetheart say: "Oo's my duty is no?" he thinks she's all to the good.
"Of course."
"But after the marriage, when he hears the same girl make the same remark to the baby, he calls it 'tommy' you know."—Yonkers Statesman.

Literary.

"I'm in a campaign for hog and hominy," says the poet, Martin Battles, "and hereafter American literature can take care of itself. I'm sorry for it, but I just can't fool with it no longer!"—Atlanta Constitution.

Making Ends Meet.

(It has been pointed out that the week-end shows tendency to expand.)
Blest be the fate that cast my lot
In these expanding days,
When Life's fair page no ugly blot
Displays.

It may be true that bustling men
Grow keener day by day;
But still there's leisure now and then
For play.

Six days of work our fathers used
To need, if they would think
And we have seen the tale reduced
To five.

And since the moments we can save
Are growing more and more,
'Twill surely be enough to slave
But four.

Nay, if with honesty I speak,
That day I hope to greet
When I shall make my idle week-
End meet.

London Daily News.
Doesn't He?

Yeast—You say your wife does a lot of unnecessary talking.
Crimchank—Sure.
"Well, don't you, too?"
"Certainly! I tell her to shut up once in a while."—Yonkers Statesman.

H. J. W. Dan, a writer, recently made application for a temporary injunction to restrain the Kirk La Shelle estate from producing "The Heir to the Hoorn" on the ground that it was a dramatization of one of his stories.

Adele Rehan is slowly recovering from a second serious illness which resulted. It is said, from the attack of appendicitis which she had last year. Plans for her spring tour have been abandoned, and she has sailed for her home on the coast of Ireland.

SCIENCE SIFTINGS.

The high cirrus clouds are believed to be formed of snowflakes.
If the atmosphere did not warm the earth like a blanket the temperature everywhere would be 300 degrees below zero.

A little Belgian girl who is not yet fifteen years old has patented a turntable which will enable vehicles that are moved mechanically or by animal force to reverse their direction without actually turning.

The highest kite ascent was lately made at Lindenber, Prussia, 21,100 feet being reached, with six attached kites and 16,000 yards of wire. The temperature fell from 41 degrees at the surface to 13 degrees below zero. The wind, eighteen miles an hour at the highest point.

EVERYBODY LIKES GOOD PIE

There is no longer any excuse for poor pies on your table, as you should follow the lead of thousands and use D-Zetta Quick Puddings as a filling for pies. Try this recipe.

TO KILL THE DANDRUFF GERM.

Is the Only Possible Way of Having An Effective Cure.

If you see a woman or a man with luxuriant glossy hair, you may be sure neither has dandruff to amount to anything. In nearly every case where women and men have this brittle hair, they owe it to dandruff. There are hundreds of preparations that "claim" to cure dandruff, but not one but Newbro's Herpicide tells you that dandruff is the result of a germ burrowing into the scalp, and that permanent cure of dandruff and its consequent falling and baldness, can only be had by killing the germ; and there is no other preparation that will destroy that germ but Newbro's Herpicide. "Destroy the cause, and you remove the effect," says the leading druggist, The Herald Co., in stamps for sample to the Herpicide Co., Dr.

Richard & Wells, Special Agents.

Are You Looking for a Home?

Why Not Buy One That Will Pay For Itself.

I have a two-tenement house in one of the best locations, three rods from electric car line and ten minutes to large lot of stonehills. Always rented, never vacant. Now you can own this home, have your own rent, and it will pay for itself. I will take a building lot, small cheap cottage or farm in exchange and give you a chance to pay balance in small monthly payments. How many times you have promised your wife that sometime you and she would own a home you could call your own. Have you yet made the start, or are you still helping to fill the pockets of the landlord? This house is in first-class repair. Will not have to have a dollar paid out on it for eight or ten years. The price will be cheap, as it must be sold at once. It will not remain on the market long at the price and terms I will give. For further particulars call at or address
